NH DHHS COVID-19 Update – April 13, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Monday, April 13, 2020, DHHS announced 35 new positive test results for COVID-19. There have now been 1,020 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Any additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, all are adults with 49% being female and 51% being male. The new cases reside in Rockingham (14), Hillsborough County other than Manchester and Nashua (4), Merrimack (1), and Strafford (1) counties, and in the cities of Manchester (10) and Nashua (4). The county of residence is being determined for one new case. No new COVID-19-related hospitalizations were reported; thus far, 152 (15%) of the 1,020 positive cases have been hospitalized. Five of the new cases have no identified risk factors. Community-based transmission continues to increase in the State and has been identified in all counties with cases. Most of the remaining cases have either had travel to domestic or international locations or have had close contact with a person with a confirmed COVID-19 diagnosis.

DHHS has also issued the first COVID-19 Weekly Summary Report, which includes additional epidemiological and demographic data about COVID-19 in New Hampshire. The COVID-19 Weekly Summary Report is available at <https://www.dhhs.nh.gov/dphs/cdcs/covid19/covid-weekly-report-04132020.pdf>.

Current Situation in New Hampshire

New Hampshire 2019 Novel Coronavirus (COVID-19) Summary Report (data updated April 13, 2020, 9:00 AM)
