Public Health Emergency Preparedness: Berlin POD "Point-of-Dispensing" Exercise

Saturday, April 13th @ Berlin High School

10:00 – 11:30 AM

550 Willard Street, Berlin

Details:

The City of Berlin is practicing their emergency dispensing plan to test and improve the region's emergency preparedness. In the event of an actual public health emergency that would require providing medication or vaccinations to Berlin area residents, the regional POD—or "point-of-dispensing"—located at Berlin High School, would be open to the community as a "clinic." The April 13th exercise will drill activation of the regional POD to receive and provide medication.

Community member "Actors" are needed to report to the POD to simulate receiving antibiotics due to a bio-terrorism attack.

***** NOTE *****

**The incident is
NOT real!**

Register: <http://bit.ly/BerlinPOD-Actor>

Community member "Actors" are encouraged to bring their families to participate! Only registered participants will be allowed on the premises.
