The Molar Express

The Molar Express is a program of the North Country Health Consortium. They are New Hampshire's only mobile dental clinic. The Molar express visits schools, nursing homes and holds community clinics in several locations throughout the North Country. Their mission: "to provide oral health services to all ages. We believe that by providing access, preventative dental services and education on good oral care, we can improve the health of people in Coos and Grafton counties." The Molar Express truck can provide services typically found in any general dental practice including: diagnostic and preventative care (screenings, digital x-rays, cleaning, sealant applications, fluoride treatments and oral examinations), treatment (fillings and extractions) and minor oral surgery.

Disciplines: Dental Hygienist and Dentist.

St. Vincent DePaul Nursing Home

Located in Berlin!

St Vincent de Paul Rehabilitation and Nursing Center offers short-term patients and residents a warm and friendly atmosphere. Located in Berlin, the heart of the "North Country", St. Vincent is less than 2 miles from Androscoggin Valley Hospital. St Vincent has three distinct nursing units designated for residents according to care needs including short-term rehabilitation and skilled nursing, dementia and memory impairment, and long-term care. Almost two thirds of St. Vincent's 80 licensed beds offer private accommodations. They provide rehabilitation therapy and nursing care for patients after hospitalization. Such "post acute" care is often needed after today's shorter hospital stays. Hospice or "palliative" care is available if curative or restorative care is no longer appropriate and desired for terminally ill individuals. They also provide short-term respite care when an at-home caregiver is temporarily unavailable or in need of extended personal time away.
