NH DHHS COVID-19 Update – June 14, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Sunday, June 14, 2020, DHHS announced 21 new positive test results for COVID-19. There have now been 5,318 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are three individuals under the age of 18 and the rest are adults with 57% being female and 43% being male. The new cases reside in Hillsborough County other than Manchester and Nashua (9), Rockingham (3), and Strafford (1) counties, and in the city of Manchester (8). Please note that the previous day's update reported the number of tests conducted at the NH Public Health Laboratories (PHL) on June 12, rather than the number of persons whose specimens were tested. The PHL testing data has been updated below.

There were no new hospitalized cases identified for a total of 513 (10%) of 5,318 cases. None of the new cases had unidentified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Most of the cases have had close contact with a person with a confirmed COVID-19 diagnosis or are associated with an outbreak setting.

DHHS has also announced 2 additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 2 female residents of Hillsborough County, 60 years of age and older

Current Situation in New Hampshire

New Hampshire 2019 Novel Coronavirus (COVID-19) Summary Report (data updated June 14, 2020, 9:00 AM)

NH Persons with COVID-19,	5,318
Recovered	3,987 (75%)
Deaths Attributed to COVID-19	320 (6%)
Total Current COVID-19 Cases	1,011

Persons Who Have Been Hospitalized for COVID-19	513 (10%)
Current Hospitalizations	62
Total Persons Tested at Selected Laboratories, Polymerase Chain Reaction (PCR) ²	97,407
Total Persons Tested at Selected Laboratories, Antibody Laboratory Tests ²	15,968
Persons with Specimens Submitted to NH PHL	30,701
Persons with Test Pending at NH PHL ³	1,084
Persons Being Monitored in NH (approximate point in time)	3,675

¹Includes specimens positive at any laboratory and those confirmed by CDC confirmatory testing.

²Includes specimens tested at the NH Public Health Laboratories (PHL), LabCorp, Quest, Dartmouth-Hitchcock Medical Center, and those sent to CDC prior to NH PHL testing capacity.

³Includes specimens received and awaiting testing at NH PHL. Does not include tests pending at commercial laboratories.

Number of Specimens Tested by Date of Report to NH DHHS
