NH DHHS COVID-19 Update – June 17, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Wednesday, June 17, 2020, DHHS announced 73 new positive test results for COVID-19, approximately 75% of which were associated with recurring testing of residents and staff at three long term care facilities experiencing an outbreak. Of the 73 new cases, 19 were not associated with a long term care facility. There have now been 5,436 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are two individuals under the age of 18 and the rest are adults with 70% being female and 30% being male. The new cases reside in Hillsborough County other than Manchester and Nashua (30), Rockingham (4), Cheshire (1), and Strafford (1) counties, and in the cities of Manchester (26) and Nashua (11).

Ten new hospitalized cases were identified for a total of 531 (10%) of 5,436 cases. Four of the new cases had no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Most of the remaining cases have had close contact with a person with a confirmed COVID-19 diagnosis or are associated with an outbreak setting.

DHHS has also announced 4 additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 1 male resident of Hillsborough County, 60 years of age and older
- 3 female residents of Hillsborough County, 60 years of age and older

Current Situation in New Hampshire

New Hampshire 2019 Novel Coronavirus (COVID-19) Summary Report (data updated June 17, 2020, 9:00 AM)

NH Persons with COVID-19	5,436
Recovered	4,104 (75%)
Deaths Attributed to COVID-19	330 (6%)
Total Current COVID-19 Cases	1,002

Persons Who Have Been Hospitalized for COVID-19	531 (10%)
Current Hospitalizations	56
Total Persons Tested at Selected Laboratories, Polymerase Chain Reaction (PCR) ²	101,984
Total Persons Tested at Selected Laboratories, Antibody Laboratory Tests ²	16,599
Persons with Specimens Submitted to NH PHL	30,998
Persons with Test Pending at NH PHL ³	1,011
Persons Being Monitored in NH (approximate point in time)	3,650

¹Includes specimens positive at any laboratory and those confirmed by CDC confirmatory testing.

²Includes specimens tested at the NH Public Health Laboratories (PHL), LabCorp, Quest, Dartmouth-Hitchcock Medical Center, and those sent to CDC prior to NH PHL testing capacity.

³Includes specimens received and awaiting testing at NH PHL. Does not include tests pending at commercial laboratories.
