NH DHHS COVID-19 Update – July 30, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Thursday, July 30, 2020, DHHS announced 33 new positive test results for COVID-19. There have now been 6,544 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are four individuals under the age of 18 and the rest are adults with 45% being female and 55% being male. The new cases reside in Hillsborough County other than Manchester and Nashua (5), Rockingham (5), Merrimack (4), Belknap (2), and Carroll (2) counties, and in the cities of Manchester (12) and Nashua (1). The county of residence is being determined for two new cases.

Two new hospitalized cases were identified for a total of 692 (11%) of 6,544 cases. Nine of the new cases had no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Most of the remaining cases have either had close contact with a person with a confirmed COVID-19 diagnosis, have recently traveled, or are associated with an outbreak setting.

DHHS has also announced four additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 2 female residents of Hillsborough County, 60 years of age and older
- 1 male resident of Hillsborough County, 60 years of age and older
- 1 female resident of Rockingham County, 60 years of age and older
