NH DHHS COVID-19 Update – September 10, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Thursday, September 10, 2020, DHHS announced 56 new positive test results for COVID-19. There have now been 7,573 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are fifteen individuals under the age of 18 and the rest are adults with 49 % being female and 51% being male. The new cases reside in Rockingham (12), Strafford (10), Hillsborough County other than Manchester and Nashua (7), Merrimack (5), Grafton (2), and Belknap (1) counties, and in the cities of Manchester (10) and Nashua (8). The county of residence is being determined for one new case.

No new hospitalized cases were identified for a total of 719 (9.5%) of 7,573 cases. Nine of the new cases had no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most of the cases have either had close contact with a person with a confirmed COVID-19 diagnosis or have recently traveled.

DHHS has also announced one additional death related to COVID-19. We offer our sympathies to the family and friends.

- 1 female resident of Hillsborough County, 60 years of age and older
