

North Country Substance Use Disorder and Prevention Series:

Harm Reduction & Naloxone Administration - Train the Trainer

Target audience includes:

Nurses, providers, mental health professionals, alcohol & drug counselors, prevention specialists, recovery support workers, others in health and human services organizations working with clients at risk for opioid overdose

**Continuing education provided - See registration!*

During this training, attendees will identify effective management of **harm reduction strategies** related to opioid overdose, including administration and management of Naloxone; they will also be **positioned to train** others to administer Naloxone in their organization and community in a culturally sensitive manner.

This presentation will guide participants to:

- Identify signs of an opioid overdose
- List three steps of Naloxone administration and management
- Recall three teaching strategies to effectively train others on Naloxone administration

Presented by Jennifer Goulet
CHW/RC, Recovery Support Manager,
North Country Health Consortium
