**NH DIVISION OF
Public Health Services**
Improving health, preventing disease, reducing costs for all
Department of Health and Human Services

**Lead Free
KIDS**

*We know pandemics can be distracting.
Don't forget about lead poisoning.
Educate yourselves, test your homes, and get your kids screened often.*

EDUCATION

In 2018 40 children in the North Country of New Hampshire had blood lead levels that needed healthcare intervention.

SCREENING

A simple test could save your child's life.
Ask your child's pediatrician about how to get tested today!
